[http://www.experteditor.com.au/competition/](http://www.experteditor.com.au/competition/)
High School Volunteer Programmes

Cambodia / Fiji / Nepal / Sri Lanka

Overseas Volunteer Trips for High School Students
Projects Abroad offers a range of two-week programmes specifically designed for high school students in year 10 and 11 – typically aged 16 and 17. The projects combine volunteer work with cultural immersion and are fully supervised by full-time Projects Abroad staff.

The projects will run in Cambodia, Fiji, Nepal and Sri Lanka over the summer of 2014 and bring together likeminded students from all over Australia and around the globe. As a group, students share the experience of personal development, leadership, and understanding – giving them a first-hand perspective of life in a developing country. Safe, sustainable and worthwhile, these projects are a journey of discovery for students which allow them to develop a greater understanding of the world around them, as they learn more about their own strengths and abilities.

Projects Abroad
Recruiting volunteers from around the world, Projects Abroad sends thousands of volunteer away annually to 29 developing countries and supports over 1400 individual projects in childcare, education, conservation, healthcare, and human rights. Founded in 1992, Projects Abroad offers safe, sustainable, constructive and worthwhile placements, which allow the volunteer to make a positive impact and form a genuine connection to the community or environment in which they work.

Practicalities
- The volunteer projects give students a unique insight into the developing world through a mixture of volunteer work, educational activities and cultural immersion.
- Students can join individually or with friends. The groups are made up of 8-20 students from schools across Australia and around the globe. Students will have the opportunity to chat to each other before departure and will take part in an online preparation workshop together.
- Accommodation in Sri Lanka and Fiji is with local host families with small groups of students in each household. The families are carefully chosen and have hosted many volunteers before. In Cambodia and Nepal students stay together in apartments and guest houses with a housekeeper providing meals and Projects Abroad staff always on hand.
- The projects are coordinated by our local full-time Projects Abroad team and each group has a dedicated Projects Abroad supervisor at all times. The programmes are well-paced and have set itineraries which are provided in the lead-up to the project.
- For all of our High School Projects, we ask for students to be positive, open-minded, proactive and enthusiastic. There will be challenges, but overcoming them is an important step in the volunteer journey – something students find hugely rewarding.

Supported – Local office, full-time staff & dedicated supervisor
Safety – Prioritised safety & fully risk assessed
Sustainable – Worthwhile, practical & educational projects
Travel – Discover the world & travel with a purpose
Grow – Build leadership, initiative, perspective & independence
Social – Make friends with likeminded students

2014 Summer Projects
December 7 - 20

CAMBODIA: Care & Community
FIJI: Community Village Project
NEPAL: Medicine & Healthcare
NEPAL: Care & Community
SRI LANKA: Care & Community
Click on the blue headings to read more information on each topic.

**Parent Information Seminars**  
We invite current senior high-school students and their parents to find out all about studying at QUT at the Parent Information Seminar. Join us on 7 May at Kelvin Grove campus, or 21 May at Caboolture campus.

**Future changes to entry requirements for education bachelor degrees**  
From 2016 onwards, Bachelor of Education courses will have prerequisite subjects instead of assumed knowledge.

**Changes to graduate entry teacher education programs**  
Students considering a pathway to teaching via a degree in another discipline, followed by a graduate entry teacher education program, should note these changes.

**2014 Vice-Chancellor's STEM Camp**  
In 2014, high-achieving Year 11 students will have an exciting opportunity to attend an intellectually challenging five day event, run in the term three holiday break, 29 September-3 October. The science, technology, engineering and mathematics (STEM) camp is fully funded by QUT. There is no cost for students to attend and it is open to both regional students and local South-East Queensland students.

**Year 10 Subject Selection for Science, Health, Engineering and Mathematics Careers**  
This event is designed to help year 10 students and their parents choose senior subjects for students wishing to study Science, Health, Engineering, and Mathematics degrees. The event will be held on Kelvin Grove campus.

**Careers and Employment Expo**  
Talk to our staff and students at Queensland's largest careers, employment, education and training expo, the Careers and Employment Expo, on 23 and 24 May 2014.
